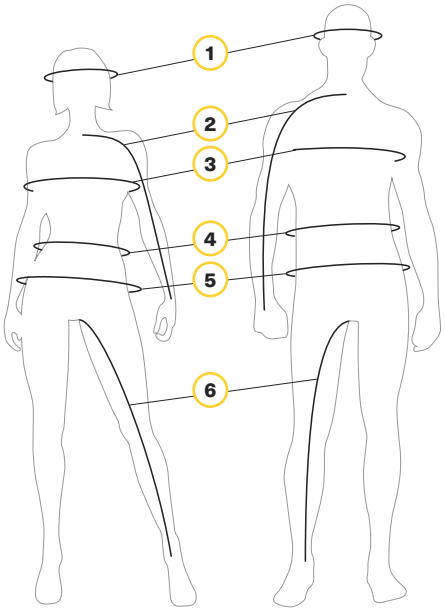
HOW TO MEASURE

- **For best results, have someone else take measurements.**
- **Measure body in underwear.**
- **Tape must be snug but not tight.**
- **If measurements fall between two sizes, order the larger size.**



1	**Head**	Around your head, from the center of the forehead, above the ears and over the natural bump at the back of the head.
2	**Arm Length**	Let the hands hang down on the side in a slightly bent position. Measure from the center of the back of your neck, along the length of your arm, to the wrist.
3	**Chest / Bust**	Measure under your arms, around the fullest part of your chest.
4	**Waist**	Measure around your natural waistline, keeping one finger between the tape and body.
5	**Hips**	Across the fullest part of the seat.
6	**Inseam**	Without shoes, from crotch to the floor.
